Parent or Guardian section:

Use of Student Photos and Acceptable Use Policy

We actively look for opportunities to promote a positive image of our school and applaud outstanding achievements of our students. Identified photos and videos of students may be posted on our web pages, published in school magazines, used in various printed school materials and given to print and broadcast media throughout the year. We prefer that all families allow for identified photos of their children.

However, if you DO NOT give permission for an identified photo or identified video of your child to be used in our printed materials, on our Web pages or in media releases, please check the space below.

___ I object to photos in which my child/children is/are identified by name being used on Summit's web site or in communications generated by the school.*

*Use of photos in online photo galleries, on our web pages and in printed school materials in which a student is NOT identified by name is exempt from withholding permission. Use of identifiable photos that are mostly viewed by The Summit community and not the general public such as school displays, bulletin boards, slide shows, videos, newsletters, school newspaper, yearbooks, class photos and other miscellaneous school projects is exempt from withholding permission. Use of student names in printed school materials and media releases is exempt from withholding permission.

Event Coverage: Media have the protection of a free and independent press and are not required to seek permission to photograph people in coverage of events that are open to the public, including but not limited to athletic events, Masses and open houses.

As the parent or guardian of this student, I have read the **Computer Technology Acceptable Use Policy** for the Summit Country Day School. I understand that computer resources, including e-mail and Internet access at The Summit are to be used for educational purposes. I understand that although administrators of The Summit and the Hamilton/Clermont Cooperative Association of Boards of Education (HCCA) have taken reasonable precautions to ensure that controversial material is eliminated on the network, my child holds the real responsibility in avoiding questionable materials and communications. I agree to support and uphold the **Acceptable Use Policy** and I give my permission for my child's use of computer resources and Internet access at The Summit.

Student E-mail Account Permission (Middle and Upper School students only)

Electronic mail accounts may be given to students to support the teaching and learning process. Written permission from the parent(s) of a student is required before the student is given an account. E-mail accounts issued to students through The Summit are created, managed, and remain the property of The Summit. A student's e-mail account may be disabled or removed for violations of school policies. E-mail accounts are not private and students are subject to disciplinary action for misuse of e-mail communication as judged by The Summit. Training is required and all e-mail users are expected to comply with Summit, Microsoft, and HCCA e-mail policies.

I give permission for my child's access to a Summit e-mail account.
